The white cedar bedecking our interior walls was milled from logs originally used as fencing timbers to corral huge cypress logs floated from the Florida swampland, down the waterways to an old saw mill at the edge of the bayou. When the mill shut down, the fencing logs were allowed to sink to the floor of the bayou where, submerged in the salt water for many decades, the marine life fed on them, carving out a maze as intricate as the bayou itself. These logs were retrieved from their watery resting place and milled for Frederica House. Supporting the chandeliers are hand forged chains used to bind the logs together in the corral. The exterior siding, as seemed fitting, was milled from cypress.
